## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 25, 2005 has been entered.

Applicants amendment filed July 06, 2005 has been acknowledged.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-8, 11-27, 37-39, 48-54 and 56-72 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 37 and 48, the recitation "each of the reason codes being mapped to a corresponding user interface" renders the claims indefinite. It is unclear how the codes are mapped to corresponding user interface. If the user interface *is configured to provide* a plurality of reason codes for disputing the invoice, now how could these codes being mapped to a corresponding user interface? Shouldn't it be that these codes

being mapped to corresponding user since each user only have access to selected information? Clarification is required.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-8, 11-27, 37-39, 48-54 and 56-72 have been considered but are moot in view of the new ground(s) of rejection.

None of the prior art of record appears to read on the invention as understood by the examiner and the subject matter of the claims appears to be allowable if the rejections under 35 U.S.C 112 can be overcome. However, upon applicant's amendment to overcome the rejections raised by the examiner and upon the examiner's better understanding of the invention a comparison of the prior art to the claims will again be made.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cross discloses a system that allows users to access billing system and review dispute report associated with invoices.
